

International Exhibition of Railway  
Technology, Products and Systems

10<sup>th</sup>  
EDITION

28 - 30 September 2021  
Fiera Milano Rho, Milan, Italy

## Our industry focus

### *Railway technology, products and services*

As Italy's only regular rail industry exhibition, EXPO Ferroviaria is the one-stop-shop covering all aspects of rail-related technology and services. Every two years, key players and railway experts attend the event to source the latest equipment and specialised products.

A high-quality seminar & conference programme will offer insights into the latest trends, innovations and developments within the rail industry.

*Let's get  
back on track*

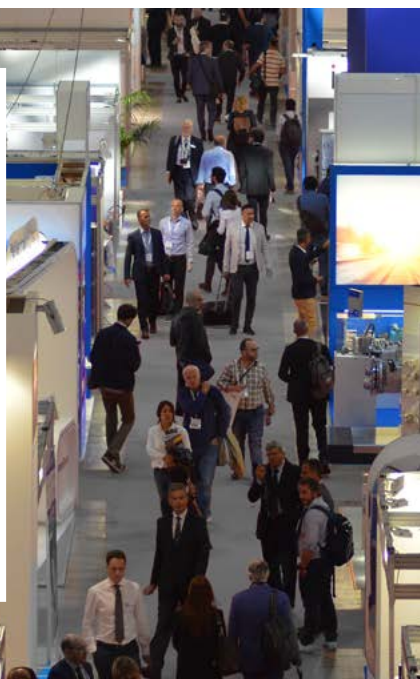

## Our exhibitors

### *Latest innovations directly from the industry*

EXPO Ferroviaria covers the whole scope of the railway supply chain and also serves as a shop window for suppliers of the many other specialised products essential to the efficient and safe operation of railway and public transport systems.

**Exhibitors will showcase products and services from the following industry areas:**

Passenger and freight rolling stock • Track and infrastructure • Fare collection technology and products • On-board comfort • Passenger information • Signalling and train control systems and equipment

## NEW FOR 2021: Hybrid event

### *One show, two experiences*

For the first time, EXPO Ferroviaria will take on a new format and become a hybrid event! The new setup will merge the on-site offering with interactive digital networking opportunities. A new matchmaking system will connect visitors to relevant suppliers, allowing them to arrange meetings based on complementary profiles. International visitors who won't be able to attend due to travel restrictions will have the advantage of exploring the latest innovations and services on virtual stands.

# Your top 4 reasons to attend

**Reinforce** your relationship with existing suppliers and connect with new business partners

**Gain access** to the broadest range of products and services

**Learn** about the latest innovations and trends in the railway sector

**Interact** with exhibitors and other attendees to discover cooperation opportunities
